**CALL FOR PAPERS**

**“BUILDING RESILIENCE THROUGH ADVANCED DIGITAL SAFETY & TECHNOLOGY”**

LOSS PREVENTION ASIA 2019 (LPA 2019) would like to invite interested industrial practitioners and researchers from all over the globe to submit abstracts for oral and poster presentations related to digitalisation of process safety and data on future trends in managing process safety, in the advent of the Fourth Industrial Revolution. Submissions will be peer-reviewed and all papers will be published in ISI/SCOPUS indexed journals. Selected papers from the conference will be published in impact factor journals. Participant from occupational and process safety professionals, researchers, scientists, academics and practitioners should come together to exchange and develop knowledge which will lead to enduring collaborations regarding loss prevention.

## CONFERENCE TOPICS

**ABOUT UTP**

Universiti Teknologi PETRONAS (UTP) was established in 1997 and has grown to be one of the most prominent private universities in Malaysia. UTP offers a wide range of industry-relevant engineering, science and technology programmes at undergraduate and postgraduate levels. In July 2014, UTP has established the Centre of Advanced Process Safety (CAPS) to provide advanced education, research activities, professional services, and corporate social responsibilities in enhancing knowledge and inculcate process safety culture for the betterment of society in this region. This year, CAPS is organising LPA 2019 in collaboration with the IChemE Safety Centre (ISC) and Centre of Risk, Integrity and Safety Engineering (C-RISE).

**ABOUT LPA 2019**

**LOSS PREVENTION ASIA 2019 (LPA 2019)** is an inaugural conference organised by Centre of Advanced Process Safety (CAPS), Universiti Teknologi PETRONAS (UTP). It is an excellent platform for knowledge sharing, intellectual discussions and also networking on various areas of interest in Process Safety. This year, the theme **“Building Resilience through Advanced Digital Safety and Technology”** is to discuss the advancement of technology through the digitalisation of process safety and integration of data analytics on future trends in managing process safety, in the advent of the Fourth Industrial Revolution.

**PUBLICATION**

Research papers will be published in ISI/SCOPUS indexed journals with additional cost and selected papers will be published in impact factor journals (Process Safety Progress, Process Safety & Environmental Protection, Journal of Loss Prevention in Process Industries, etc). Industry Presenters can submit extended abstract only.

**ATTRACTIONS**

**Prominent Keynote Speakers from Industries and Academia**

**Industrial Panel Discussions on:**

*“Embracing Digitalisation of Safety in Plant” and “Digital Innovation Transform Future Industries and Prevent Losses”*

**Exhibitions from Reputable Industries**
